THE DAYS OPERATIONS IN STOCKS

The stock market was strong on a limited votume of business. London prices were again higher, and early transactions here were shaped on the basis of foreign quotations. In certain tooks the upward tendency was pronounced. notably in the Flower specialities, Rock Island Ar and People's Gas, the maximum gain in these issues amounting to 1% and 2% per cent respectively. The character of the dealings in tock Island and the known favorable position of the company as regards financial conditions re considered practical promises that Rock Island stockholders will be generously treated at the coming dividend period in June. As for People's Gas, its advance is based upon the company's earning power and dividend record, while buying of the stock is encouraged by the attractive level it is selling at for a 6 per cent issue. The Chicago shorts in this stock were well punished yesterday.

Heavy public buying of securities is still held in check, owing to the uncertainty surrounding the progress of the war. It is safe to say, however, that upon the first appearance of definite and inspiriting war news the public will assume a prominent position in the market. It is believed that with a broader speculation the low-priced shares will enjoy marked upward movements. Evidence is not wanting that the interests identified with such properties expect marked advances in the current market, espedally in Missouri Pacific, Chicago Great Western, Cleveland, Lorain and Wheeling, Atchison preferred, Southern Railway preferred and Wabash preferred. The earnings of all these companies are excellent. Missouri Pacific's earnings have been remarkably good for the last year, and returns now coming to band show striking gains. The low-priced shares will doubtless move under the influence of manipuation, but that manipulation will be based upon substantial facts regarding the intrinsic worth of the properties.

In the last half hour profit-taking sales and ear operations reduced early advances, leaving last prices at irregular changes as compared with Thursday. As a rule the more active issues showed small net gains. The distribution of business covered 116 different issues, and the final dealings on the decline exhibited little disposition among holders to part with their possessions, despite various bear rumors regarding the conduct of the war. While a reaction would not injure the underlying strength of the market, there appears no intention by the inin control of speculation to permit a for a decline. The profit selling has been modrately heavy all the week, but sales so made we been absorbed by strong holders. Bear

closed at 24¼ cents. The shipping demand is as slow for oats as for corn. Weather conditions are just as perfect. Receipts were 480 cars, with 415 for Saturday. Clearances, 190,000 bushels.

There was a good deal more Cudahy seiling of provisions. Everything was weak—pork off 22½ cents, lard off 15 cents, ribs off 10 cents. Hog receipts were not so heavy—17,000 head, with 15,000 estimated for Saturday. That is because of the break in prices. The consumption demand is slow, and has been for a week. There were those who thought Armour was a seller to-day.
